Here is the information on the lodging for the spring nationals in May 2017 in Maryville Tennessee. We have reserved the Tremont Lodge for the spring nationals. We will have everything there.

They have given us the whole lodge that weekend, there's a convention center and a lodge/event center for our use. They also have five cabins, one on site and four off site about two miles up the road. Three of the off site cabins are not to motorcycle friendly but not in possible if you've ever rode up a steep driveway. They will tell you which cabins those are.

There is two outdoor swimming pools and one indoor pool with jacuzzi which will all be open. There is also a playground for kids, too. The lodge is about 2 miles from the entrance to the Great Smokey Mountains National Park which is a free park. The lodge has motorcycle tour maps "free" if you would like to get in some riding. Townsend is a small community and very motorcycle friendly.

Karen and I rode up to see it today and the staff there are really helpful and are looking forward to having us there in the spring. The gentleman we talked to said if anyone wanted to see the lodge on line, go to "oyster.com" and put in Townsend Tennessee, look for Tremont Lodge and you can view the grounds, rooms etc., looking forward to seeing everyone this spring.
